Scenic:

- Luciana is curious about the tech schedule to see if there is enough time to focus on set dressing and the many props.
- Kristin said the trees are up but they look a little naked right now. Today they are going to rig the practicals today and work on adding fullness to the trees as much as possible before focus tomorrow.

 - Kristin said anytime before 3 (quiet time) works great.

Props:

- Ryan will drop off some things for the SM team today that they have been waiting on.
- He is also going to add the board under the couch cushions today.
- Ryan asked a question about the berries and trail mix. He knows that it is not consumable but he asked if any of it comes out of the bag?
 - Kayla said it does not and that the bag is just handed to the other actor.
- Ryan has found another floor lamp that is similar to the previous option he proposed. He asked why the previous lamp shape didn't work?
